NEW! Glow Time™
Blush & Bronzer Sticks

Naturally Radiant, Creamy, Blendable Color

Ignite your look

Light up your look with NEW Glow Time™ Eternals, an all-new collection of naturally radiant, no shimmer, cream blush and bronzer sticks designed to bring out your natural glow.

- ◆ Multi-purpose, convenient cream sticks
- ◆ 8 buildable, blendable bold shades
- ◆ Hydrating, skin-nourishing ingredients

NEW Glow Time® Blush Stick

ETERNALS

Capture the radiance of a natural flush in five fresh shades.

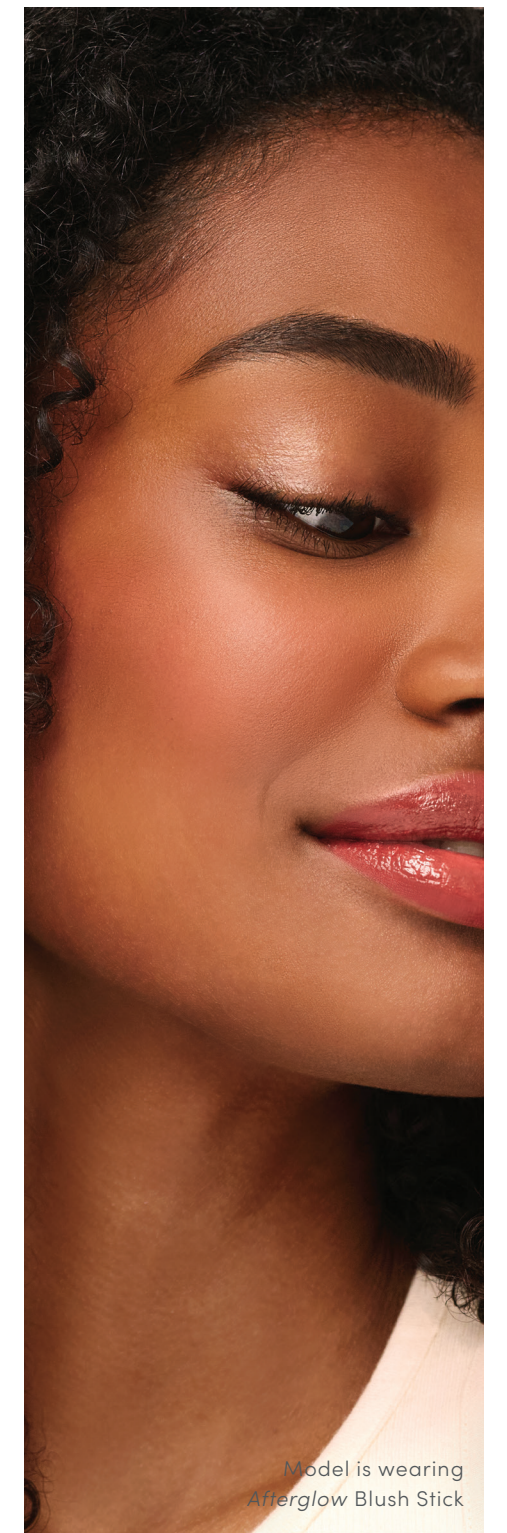

Glow Time Blush Stick – For a natural, radiant flush

Sweep Glow Time Blush Stick directly on to skin from higher part of the apples of the cheeks up toward the temples.

Gently blend using the Blending/Contouring Brush or fingers.

Glow Time Blush Sticks are creamy and streak free for a smooth, fluid application.

NEW Glow Time™ Bronzer Stick

ETERNALS

Get an all-over sun-kissed glow or strategically sculpt for a symmetrical, more defined face.

Glow Time Bronzer Stick – For a sun-kissed look

Apply Glow Time Bronzer Stick to the high points of the face where the sun would naturally hit. The forehead, cheekbones, top of the chin and nose.

Gently blend using the Blending/Contouring Brush or fingers.

Glow Time Bronzer Sticks give you that glowing sun-kissed look, the healthy way.

Glow Time Bronzer Stick – For a sculpted look

Sweep Glow Time Bronzer Stick under the cheekbone, jawline and up to the hairline on the forehead.

Gently blend using the Blending/Contouring Brush or fingers.

Glow Time Bronzer Sticks used to contour for that sculpted look that defines cheekbones and features.

Glow Time® Blush & Highlighter Sticks

ETHEREALS

Luminous, shimmer cream blush & highlighter sticks.

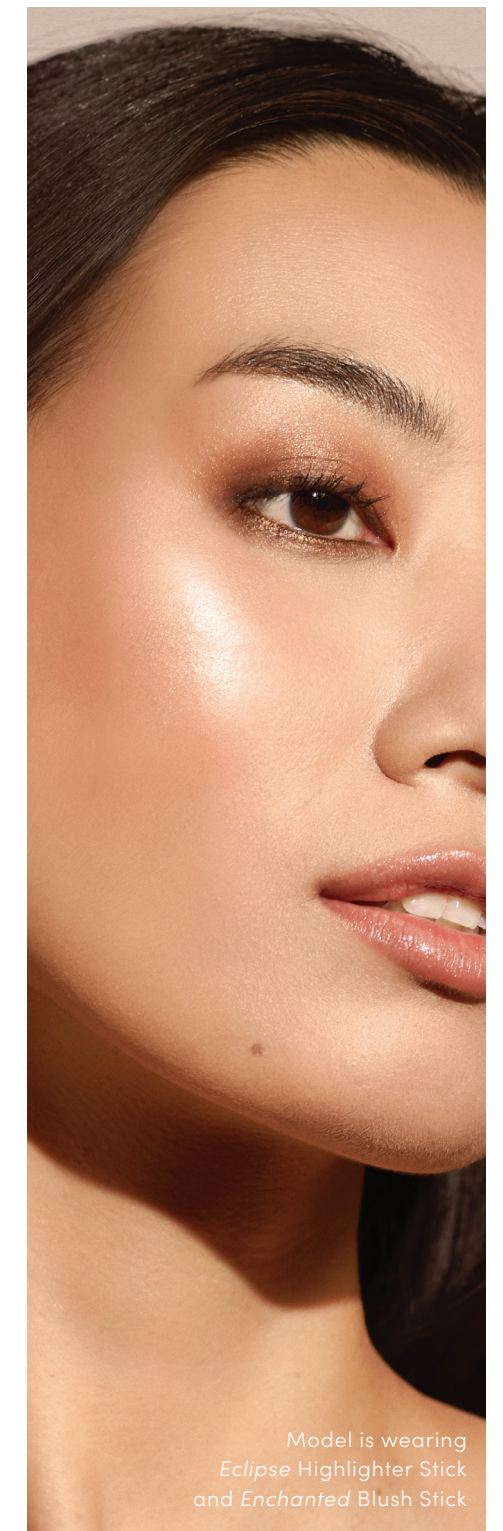

Glow Time Blush & Highlighter Sticks – For a bright, illuminated glow

After applying Glow Time Blush Stick, sweep Glow Time Highlighter Stick over the high points of the face to illuminate.

Gently blend using the Blending/Contouring Brush or fingers.

Happy together tip

Applying cream blush or bronzer as a base for a powder blush or bronzer “anchors” powder on the skin and gives it something to adhere to. This means that color will not only stand out as brighter but will also last longer on skin.
