

ORIGINAL BLUE PEEL®

Discover
the beautiful,
younger-looking
skin within

Obagi skin is healthy skin

Peel away the signs of skin ageing

What is a chemical peel?

A chemical peel is a minimally invasive procedure that helps improve the appearance of the skin. During the procedure, your doctor carefully applies combinations of powerful solutions to the face, décolletage (neck and chest), or hands to remove dead skin cells. The solutions penetrate into the skin, causing dead skin cells to peel off. The new skin is smoother and more refined-looking.^{1,2}

There are many types of chemical peel preparations, and the right preparation for you depends on your skin type and desired results. Medium-depth chemical peels often include the use of trichloroacetic acid (TCA) to improve the appearance of^{1,2}:

- Fine to medium wrinkles
- Moderate photodamage
- Discolouration problems
- Superficial acne scars

Chemical peels in general can also improve other skin problems, including¹:

- Acne
- Freckles
- Facial scars
- Rough skin

Reveal healthier, younger-looking skin with Original Blue Peel®

- A highly effective, medium-depth chemical peel used with a low concentration of TCA
- Skin will appear firmer, clearer, and smoother
- Patented Blue Peel Base allows your doctor to tailor the application process to the specific needs of your skin*
- Can be performed on the face, neck, chest, hands, back of arms, and legs
- Application takes about 20 minutes†

* A bluish tint remains on your skin, which will usually wash off in 12 to 24 hours.

† Application time varies depending on the number of coats your doctor has determined are necessary to achieve your goals.

Glowing results with Original Blue Peel®

- Firmer, smoother, younger-looking skin with a TCA-based, medium chemical peel

Optimise the results of Original Blue Peel® with additional Obagi® products

Transform — Lay the foundation for a more visible and even outcome with Obagi systems, 4 to 6 weeks prior to and following the first peel¹

Prepare and complement — May aid the performance of other Obagi systems

Obagi Nu-Derm® System

Obagi-C® Rx System
