

Help protect your skin with 2 new shades of uniquely formulated sunscreens

Obagi's sheer and fragrance-free tinted sunscreens help prevent sunburn and promote healthy-looking skin

- Provides broad-spectrum skin protection from damaging UVA and UVB rays
- Additional defence against infrared (IR) solar radiation, that penetrates the skin most deeply, to help skin maintain it's resilience
- Available in Warm and Cool tints for different skin tones
- Hypo-allergenic and dermatologically tested for all skin types
- Perfect for Fitzpatrick Skin Types I-III
