ADVANCED LIFTING TECHNOLOGY

Featuring the combination of Obagi's patented Bi-Mineral Contour Complex™ & 9 powerful moisturizing ingredients:

Bi-Mineral Contour Complex™

Our patented technology that harnesses Zinc, Copper, and Malonate; specifically designed to support the three necessary stages of healthy elastin.

4 Powerful Humectants

in which both Polyglutamic Acid (PGA) and Beta-Glucan offer superior hydration compared to Hyaluronic Acid. Polyglutamic Acid is also a peptide found in dermal fillers.

4 Potent Emollients

Rich in lipids, keep the skin soft and smooth, and help enhance the skin barrier.

Sodium Hyaluronate Cross Polymer

Cross-linked molecules derived from natural Hyaluronic Acid (HA) that help support skin barrier function and skin elasticity.
