

Restore natural strength
and resilience
around the eye

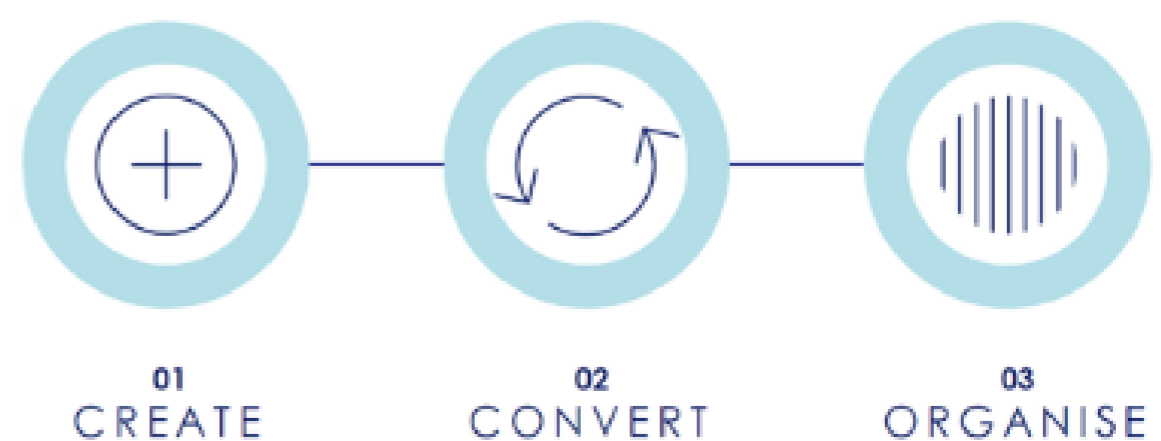

"I am delighted at the results. The skin under my eyes not only feels more hydrated, but the dark, puffy and crepey skin has vastly improved."

The ELASTIderm® Eye Products are ideal for:

- Loss of firmness
- Appearance of skin sagging, laxity and crepiness
- Delicate skin around the eye area

Bi-Mineral Complex was specifically designed to promote the three necessary stages of developing healthy elastin:

Clinical Study Protocol: ELASTIderm® Eye Cream Applied twice daily for 9 weeks. 56 year old female. Photos shown are not retouched.
