REDISCOVER YOUR BROWS

OBAGI NU-CIL™ Eyebrow Boosting Serum

OBAGI
MEDICAL

NouriPlex™ Technology is a complex blend of four high-performance ingredients that gives our brow serum the effective boost you need for results.

PANTHENOL

is the stable and biologically active form of pantothenic acid, also known as Vitamin B5. It helps with hair conditioning, moisture and texture improvement.

SODIUM HYALURONATE

is a form of hyaluronic acid that attracts and retains water to both hydrate and thicken the appearance of your eyebrow hair.

BIOTIN

supports the production of keratin.

PROPRIETARY LIPID COMPOUND

targets the anagen phase of the brow hair cycle to provide thicker, fuller-looking eyebrows.

CLINICAL RESULTS

4 WEEKS

BEFORE

AFTER

8 WEEKS

BEFORE

AFTER

WHAT IS THE CURRENT STATE OF YOUR BROWS?

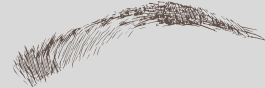

Brows thin over time and can be diminished by over-tweezing and shaping. Hair follicles can stop producing hair, eyebrow hair can deteriorate, lighten in color, and decrease in volume and density.

Identify your eyebrows currently.

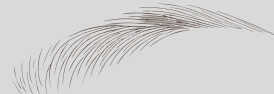

OVER-TWEEZED

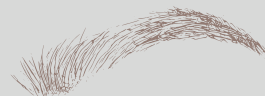

PATCHY

THINNING

LIGHT COLOR

If you are experiencing any signs of aging eyebrows, you may benefit from adding an eyebrow boosting serum to your routine.
