LIPOCel

Why patients choose LIPOCel

With LIPOCel's patented contact cooling system, maximum heat is delivered without causing pain or disruption to the surface of the skin. The treatment is quick, completely tolerable and highly effective - with minimal to no downtime for patients.

Frequently asked questions:

When will I see results?

Results vary however most patients can expect to see visible results from 6 weeks and will continue to improve up to 12.

How many treatments will I need?

The number of treatments is determined by the amount of fat that needs to be removed and by the area being treated. Generally patients will require between 1-3 treatments spaced 6-12 weeks apart.

What after care routine should I follow?

To accelerate the results you should follow a dietary plan and maintain a healthy lifestyle.

How long before I can return to normal activities?

Following completion of the LIPOCel treatment, the treatment area may be slightly pink but otherwise there is no downtime and normal activities can be immediately resumed.

LIPOCel

Design your lines

Define your shapes

**Non surgical fat loss
and body contouring**

LIPOncel is a state of the art, **next generation** non-surgical treatment for safe, highly effective fat reduction and body contouring

LIPOncel is a significant breakthrough in fat busting technology. LIPOncel delivers focused ultrasound through its patented contact cooling system™ ensuring maximum heat energy transfer with minimal pain or disruption to your skin's surface. The result is a highly effective treatment known as:
