

# What do our patients say ?

“

The difference is incredible with Topilase®! The effect of the product is very fast. After 15 days, I had no more swelling from the hyaluronic acid. Unbelievable! With the application of Topilase®, my irregularity decreased more and more and I saw my skin swelling disappear as the days passed. Thank you!

”

“Topilase® gave me back my face”

\*After 4 sessions of Topilase® in the periorbital area.

“A feeling of relief and deflation of my tear trough”

\*After 1 session of Topilase® on the tear trough.

“

Ultimately, the results were incredible. After applying the cream, I found that my skin was smoother and more supple, and I could feel the uncomfortable feeling that I had, fade away. In 2 months and zero side effects, I finally got my eyes back.

# Topilase

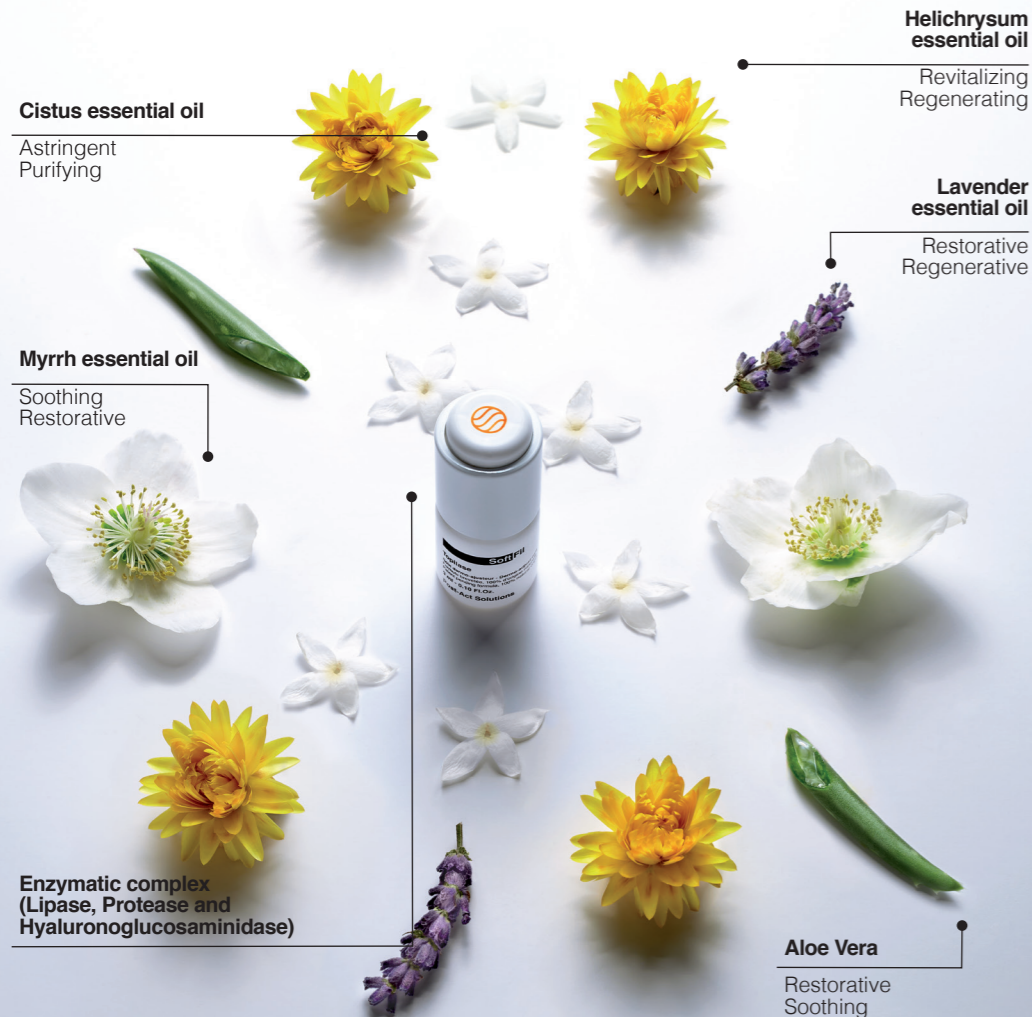

<sup>®</sup>

## The first topical dermo-adjust care

Safely improve the appearance of skin irregularities linked to tear trough hyaluronic acid injections

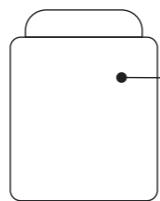

# A formula of 100% natural origin ingredients

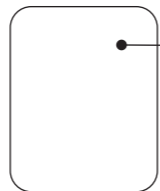

## A “push & mix” technology

A double compartment vial containing:

### An enzymatic complex:

concentrated in dispersing agents to improve the permeability of the skin.

### A liquid solution:

5 powerful and natural ingredients selected for their recognized virtues.

Sold in a 3 ml bottle with a dosing tip, for better application precision.

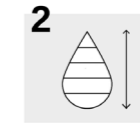

## Skin benefits

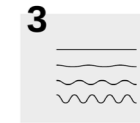

### Reduces

the appearance of swellings to restore the eye contour natural look.

### Models & evens

the surface of the skin.

### Smoothes

surface irregularities and improves the appearance of the skin previously injected with hyaluronic acid.

## A solution for tear-trough skin irregularities

It is recommended to use Topilase® in the tear-trough area. The topical care is particularly efficient in this sensitive zone where hyaluronic acid injections can create swellings. Application results under the eye have proven efficient with no reported side effects.

## Application protocol

- Squeeze the upper compartment to release the enzymes into the solution,
- Shake the bottle vigorously,
- Once emptied, discard the upper compartment and screw the dosing tip to the lower compartment,
- Shake the bottle again,
- Apply a few drops of Topilase® to the area to be handled and spread the product using your gloved hands,
- Massage the area well for 3 to 4 minutes,
- Remove excess product.

## Care spacing

Each Topilase® treatment should be spaced **1 week apart**.

On average **3 sessions** will be necessary.

Maximum **14 days** in the refrigerator once opened.
