

## WHY JAN MARINI SKIN RESEARCH®?

Founded in California in 1994, Jan Marini Skin Research® (JMSR) is a recognised skincare leader, providing evidence-based, innovative and effective treatment against a range of common skin conditions. JMSR was developed and tested by dermatologists and is a trusted complete skincare solution by clinicians around the world.

JMSR® is exceptionally geared toward all skin types and can combat signs of **ageing** (such as **fine lines** and **wrinkles**), **sun damage**, **acne**, **redness** and **skin discolouration**.

JMSR®'s formulas can change lives, whether it's dramatically changing the skin of those suffering from stubborn acne or rosacea, or reducing the appearance of discolouration or wrinkles.
